

David E. Bakken (Summary page) CV

Education Summary

Ph.D., Computer Science (minor: Arabic), The University of Arizona, 1994.

BSs, Computer Science and Math (minor: EE): Washington State University, 1985.

Overview of Professional Experience

Assistant Professor & Associate Professor & Professor, School of EECS, WSU, June 1999 to present.

Visiting Professor, University of Oslo & Simula Research Lab, Norway, AY2004-2005

Scientist Distributed Systems Department, BBN Technologies, July 1994 to June, 1999.

Software Engineer, Boeing, Seattle, WA, June 1985 to July 1988. *Data_Flow* invention still in use as of 2015.

Areas of Expertise

Power grid wide-area data delivery mechanisms, middleware implementations, dependable distributed computing. Consulted to Amazon.com, Intel, Harris Corp, Real-Time Innovations, and others.

Recent Professional Recognition

1. [Invited paper](#), (First) [Fog World Congress](#), IEEE and OpenFog, Santa Clara, CA, Oct 30 –Nov 1, 2017.
2. Founding organizer, DSN-2014 Workshop on “Trustworthiness of the Smart Grid” ([ToSG](#)). **IEEE PES Pres. Miroslav Begovic** was keynoter and panelist and said this was crucial to carry on, next one at ISGT in Feb, and arranged for this.
3. Participant, kickoff meeting: influential NSF-DOE “Next Generation Grid Data Architecture”, Dec 2013. Participated in 3 followups in 2014.
4. Chair, Panel on Cloud Computing. IEEE Innovative Smart Grid Technologies (ISGT) conference, Feb. 2014.
5. Chair, *Workshop on Closed-Loop, Wide Area Applications, Communications, and Security* at IEEE SmartGridComm 2013.
6. Chair, IEEE SmartGridComm Symposium on Wide-Area Monitoring, Control, and Protection (WAMPAC). Tainan City, Taiwan, November 2012. Also program committee member of networking symposium.
7. Co-Editor of book *Vision for Smart Grid Communications: 2030 and Beyond Roadmap*. IEEE ComSoc, 2013.
8. Lead editor of book *Smart Grids: Clouds, Communications, Open Source, and Automation*. CRC Press, 2014.
9. Panel on high-profile US. Dept. of Energy panel on “Data Management and Analytics”, Feb 5, 2013, as well as panelist on the 3 followup workshops.
10. National PSERC webinar, October 4, 2011
11. Invited to testify to the US General Accounting Office (GAO) on power grid cyber-security, June 2010.
12. Lead author on Best Paper Award for the “Connectivity” Track of Grid-Interop 2009, the communications conference of the pseudo-official “Smart Grid” community in DoE and NIST, November 2009.

Recent Invited Keynote Presentations

- | | |
|------------|--|
| 2011.09.29 | Plenary speech, Smart Grid World Forum, Beijing, China. In same session as GE CEO Jeff Immelts . |
| 2010.05.18 | International cooperation meeting with EC industry ; only non-EC researcher; U. of Naples "Parthenope", Italy |
| 2009.01.20 | European Commission ICT- Energy Research Information Day , Brussels Belgium |
| 2005.05.30 | Workshop on Next-Generation Power Grid Communications for Better Control and Protection, Rome, Italy |
| 2005.02.04 | European Commission Workshop on Power Grid Communications , Brussels, Belgium |

Doctoral Committees (Voting Member)

Georgia Tech (2x), Carnegie Mellon, Technical University of Darmstadt, Chalmers University (“Opponent”); KTH Royal Institute of Technology, Stockholm Sweden, Fall 2016.

Other items of note

The last few pages of this CV have a long list of *invited presentations*, highlighted to denote **power** versus **computer science** audiences. Note the number of power audiences; it does *not* include *many* other power meetings attended.

David E. Bakken

School of Electrical Engineering and Computer Science,
Washington State University, Pullman, WA USA
bakken@eecs.wsu.edu

Professional Experience (Details)

Assistant Professor & Associate Professor & Professor, School of EECS, WSU, June 1999 to present.

Visiting Professor, University of Oslo & Simula Research Lab, Norway, AY2004-5

Scientist Distributed Systems Department, BBN Technologies, July 1994 to June, 1999.

- PI for AQuA Project in DARPA ITO Quorum program, adding replication mechanisms and policies to the QuO framework. 8/96 through 8/99.
- Co-Lead architect for the Quality Objects (QuO) framework, adding quality of service mechanisms and policies to distributed object frameworks. 7/94 to 6/99.
QuO has been cited over 2000 times (just the 5 main papers), has flown in Boeing experimental military aircraft, has been an integrating technology in a number of DARPA programs, and has been evaluated for use in other military programs.
- Lead technical consultant to BBN Planet (now Genuity) ISP services on how to add replication and caching support to their new global fiber network, 7/98 to 6/99.

Instructor, Boston University Metropolitan College, Fall 1995.

Software Engineer, Boeing, Seattle, WA, June 1985 to July 1988.

- Initiated, designed, and developed the *Data_Flow* suite of tools to help parallelize legacy FORTRAN flight simulation programs. Called a “major tool” by Boeing in 2001, still in use as of 2017 (!!).
- Worked on debugging monitor for real-time executive for 7J7 airplane program until cancelled (not my fault).
- Taught Ada, Unix, and C courses to Boeing employees.

Consulting and Board Membership

Principal Distributed Systems Architect, TriGeo Network Security Inc., January 2001 to June 2003.

Member, Board of Directors, TriGeo Network Security, 2001-2002.

Principal, [Bakken Middleware Associates](#) (now AKA *NASPINET Consulting Services*), Sep. 2000 to present.

Consulted to

- **Amazon.com**, on fault tolerance and scalability
- **Network Associates Inc. Labs** (formerly Trusted Information Systems), on DARPA/ISO survivability research on replicated CORBA middleware that will tolerate intrusions and other “Byzantine” behavior (such as security breaches). See our paper in the DSN-2002 conference paper (McDonnell et al) below.
- [Real Time Innovations](#), on power grid IT realities.
- **Intel**, on power grid security and interoperability issues and players
- [Harris Corp.](#) (who runs the FAA’s Air Traffic Control real-time network) on power grid data delivery issues.
- [Pacific Northwest National Lab \(PNNL\)](#), on wide-area data delivery and integration issues.

See [here](#) for deeply-technical letters of recommendation on my system-building skills. (Note, this was circa 2001 so does not yet include anything about my electric power ICT

Grants and Donations

Academic Research

(probably a few I forgot, being too busy doing the actual work.)

D. Bakken and A. Srivastava, “Infrastructure to Enable Edge-Computing Based Power Apps and Services using Fog”, Cisco, \$115K, 6/29/17 to 7/1/18. Budget control: 60%.

D. Bakken and A. Srivastava. “Advanced Cyber-Physical Analysis for Smart Grid Distributed ICT and IED Resources at RTE France”, RTE France (via PSERC S-63G), 12/20/14 to 12/31/17, \$311.5K. Budget control: 50%.

K. Birman, R. van Renesse, D. Bakken, C. Hauser, and A. Bose. “GridControl: A Software Platform to Support the Smart Grid”, US Dept. of Energy ARPA-E program, 2/2012 to 2/2015, \$1.4M. Subcontract to Cornell, Budget control ~20%. Developing the GridCloud architecture on this grant.

A. Bose, L. Perez, D. Bakken, C. Hauser, and Mani V. “Training Program in Clean Energy Smart Grid Engineering”, (also with PNNL and U. Washington), Dept. of Energy, \$2.5M, 8/2010-7/2013. Budget control (very) roughly 10%.

A. Bose, D. Bakken, C. Hauser, and Mani V. “Power Grid Reliability and Security” (AKA GridSim), Dept. of Energy, \$2.0M, 10/2009-9/2012, budget control 25%,

C. Hauser, D. Bakken, and A. Bose. “Trustworthy Cyber Infrastructure for the Power Grid (TCIPG)”, \$2,206,250. August 2010 thru July 2015. Budget control: 33%.

D. Bakken and C. Hauser. “Regional Deployment of GridStat”, Dept. of Energy (via PNNL), \$200K, August 2007 to August 2008. Budget control: 50%..

C. Hauser, D. Bakken, and A. Bose. “Trustworthy Cyber Infrastructure for the Power Grid (TCIP)”, National Science Foundation (Center Scale Award), \$985,000, August 2005 – August 2010. Budget control: Hauser 33%, Bakken 33%, Bose 33%.

D. Bakken, travel grant for working on EU proposals, Faculty of Mathematical and Natural Science, University of Oslo, 2005, \$2050 (13,000 Kroner), Budget control: Bakken 100%.

C. Hauser, D. Bakken, and A. Bose. “International Collaboration on Critical Infrastructure Protection”, National Science Foundation (Supplement to \$211K grant), June 2004 to July 2005, \$30,000. Budget control Bakken: 100%.

C. Hauser, D. Bakken, and A. Bose. “Transatlantic Critical Infrastructure Protection (CIP): Surveying EU Investments in SCADA-related topics”, National Science Foundation (Supplement to \$211K grant), April 2005 to August 2006, \$21,057. Budget control: Bakken: 100%.

T. Plagemann, V. Goebel, C. Griwodz, P. Halvorsen, D. Bakken. “Ad-Hoc InfoWare: Middleware: Extension for Sabbatical Support for Professor D. Bakken” Norwegian Research Council, 2003, \$41,100 (approx.; 280,000 Kroner) in AY04-05, \$14,700 (approx.; 100,000 Kroner) in followup year. Budget control: Bakken 100%.

C. Hauser, D. Bakken, and A. Bose. “Secure and Robust IT Architectures to Improve the Survivability of the Power Grid”, National Science Foundation, August 2003 to August 2005, \$211,822. Collaboration with Carnegie Mellon University. Budget control Hauser: 60%, Bakken: 40% , Bose: 0%.

D. Bakken and D. Blough: “The Obfuscation Virtual Machine: An Embeddable, Programmable, and Managed Software Module Providing Computation Precision Security”, Air Force Research Laboratory, September 2002 to September 2004, \$438,189, subcontract to Georgia Institute of Technology (Prof. Douglas Blough, PI). Budget control (salary, RAs, equipment, etc.): Bakken 72%, Blough 28%. (Only \$360,000 was authorized of the \$438,189 originally awarded due to budget cuts at AFRL.)

D. Bakken and A. Bose. “Industrial Applications of Information Security to Protect the Electric Power Infrastructure”, subcontract from Schweitzer Engineering Labs (co-PI Anjan Bose), in NIST Critical Infrastructure Protection program, \$248,000, October 2001 to May 2003. Budget control (salary, RAs, equipment, etc.): Bakken 91%, Bose 9% (from the proposal budget; Bose gave Bakken 100% control after the fact; he did not need salary from this).

D. Bakken. “Floating Point Voting Middleware Technology Transfer”, \$14,500, DARPA, subcontract from Network Associates Inc. on the ITDOS project (Byzantine-fault-tolerant CORBA), August 2001.

D. Bakken. “Voting Virtual Machine Extensions and Enhancements”, \$52,184, DARPA, subcontract from Network Associates Inc. on the ITDOS project (Byzantine-fault-tolerant CORBA), February 2002.

D. Bakken and K. Sivalingam. “Configurable and Composable Systems Mechanisms Supporting Multi-Property Quality of Service for Memory and Power Constrained Embedded Systems”, \$100,000, NSF, subcontract to co-PI, Krishna Sivalingam for power awareness aspect of project. Budget Control (salary, RAs, equipment, etc.): Bakken 82%, Sivalingam 18%.

Industry Donations

D. Bakken, Power Grid Middleware Support, Real-Time Innovations Inc, \$5000, 2012.

D. Bakken, Power Grid Middleware Support, Real-Time Innovations Inc., \$5000, 2010.

D. Bakken, Power Grid Middleware Support, Real-Time Innovations Inc., \$5000, 2009.

D. Bakken and C. Hauser. Cisco research donation, \$80,000; July 2003, for MicroQoS CORBA middleware research and development. (Co-PI: Prof. Hauser. Bakken budget control: \$67,500).

D. Bakken. Cisco research donation, \$69,000; June 2002, for MicroQoS CORBA middleware research and development.

D. Bakken. Microsoft, software donation for advanced distributed systems research and instruction, \$777; Feb 2002.

Intel equipment grant, \$18,593; Dec. 2001. For advanced distributed systems research and instruction.

D. Bakken. HP Labs distributed systems research donation, Fall 2000, \$12,000.

D. Bakken. Microsoft curriculum development grant, \$4200, June 2000. For advanced distributed systems instruction.

D. Bakken and K. Sivalingam. HP Equipment grant, June 2000, \$236,000, for distributed systems and networking courses. Budget control: Bakken 50%, Sivalingam 50%.

K. Sivalingam and D. Bakken. Intel equipment grant, \$22,598, 2000, for networking and distributed computing instruction. Budget control: Sivalingam 50% Bakken 50%.

Research Grants while in Industry

D. Bakken, R. Schantz, W. Sanders, and **K. Birman**. “Adaptive Quality of Service for Availability” (AQuA), 8/96 to 8/99 (at BBN), sponsored by DARPA/ITO, \$2,665,856 (originally \$1,968,712; augmented in 1998). CO-PIs Schantz (BBN); Bill Sanders (U. Illinois at Urbana-Champaign, circa 30%); Ken Birman (Cornell U, circa 10%).

D. Bakken and **D. Frincke**. “Adaptive and Hierarchical Manager Modules for Managed Security Administration”, 7/01-9/01 (at TriGeo Network Security Inc.), sponsored by Spokane Intercollegiate Research & Technology Institute (SIRTI), \$100,000. Budget control: Bakken 50%, Frincke 50%.

Current External Doctoral Committee Members

None.

Professional Activities

External Doctoral Committees

Zhiyuan Zhan, “Meeting Data Sharing Needs of Heterogeneous Distributed Users”, College of Computer Science, Georgia Institute of Technology, December, 2006. Voting member of committee.

Kristina Forsberg, “Design Principles of Fly-By-Wire Architectures”, Department of Computer Engineering, Chalmers University of Technology, Göteborg, Sweden, June, 2003. “Opponent” in the dissertation defense (formal inquisitor and voting member of committee).

Vijaykumar Krishnaswamy, “Shared State Management for Time Sensitive Distributed Applications” College of Computer Science, Georgia Institute of Technology, February 2001. Voting member of committee.

Peter A. Dinda, “Resource Signal Prediction and its Application to Real-Time Scheduling Advisors”, School of Computer Science, Carnegie Mellon University, February, 2000. Voting member of committee.

Symposium Leadership

Founder, [Workshop on Trustworthiness of Smart Grids](#). First one held at the IEEE International Symposium on Dependable Systems and Networks (DSN), Atlanta, GA, June 23, 2014. Second one held at IEEE PES Innovative Smart Grid Technologies (ISGT) conference, Washington, DC, February 18, 2015.

Chair, IEEE SmartGridComm Symposium on Wide-Area Monitoring, Control, and Protection (WAMPAC). Tainan City, Taiwan, November 2012.

Panel Participation

Chair, panel “Edge Computing for a More Adaptive and Manageable Grid”, [IEEE Innovative Smart Grid Technologies](#), February 19-22, 2018, Washington, DC.

Moderator of panel “Cyber-Physical ICT and Power: Issues and Opportunities”, [2nd International Workshop on Trustworthiness of Smart Grids \(ToSG\)](#), Washington, DC, February 18, 2015.

Moderator of panel “Cloud Computing and the Smart Grid: Threat, Menace, or Salvation”, IEEE Innovative Smart Grid Technologies (ISGT) North America (ISGT-2014), Washington, DC, February 22, 2014.

Panelist for “Data Management and Analytics”, Advanced Grid Modeling Workshop, US. Dept of Energy, Knoxville, TN, Feb 5-6, 2013.

Panelist for “Communications Interoperability” panel, Grid-Interop 2009 (main “smart grid” community in US), Denver, CO November 17-19, 2009. Topic: “Smart Grid Communications: QoS Stovepipes or QoS Interoperability?”

Panelist for panel “Critical Computing Systems: Challenges and Directions”, Fourth International Conference on Configurable Distributed Systems (CDS '98), Annapolis, MD, May 4-6, 1998.

Moderator of panel “Extending QoS to include Performance, Dependability, and Security”, Sixth International

Working Conference on Dependable Computing for Critical Applications (DCCA-6), Grainau, Germany, March 5-7, 1997.

Panelist for panel “Major Research Issues in Object-Oriented Reliable Distributed Systems”, Second International Workshop on Object-Oriented Real-Time Dependable Systems (WORDS ‘96), IEEE, February 1996.

Session Chairs

Chair of Session “S1-4: Traffic Monitoring and Analysis”, IEEE ComSoc International Conference on Smart Grid Communications (SmartGridComm 2015), November 4, 2015, Miami, Florida.

Chair of Session “S1-5: Traffic Monitoring and Analysis”, IEEE ComSoc International Conference on Smart Grid Communications (SmartGridComm 2015), November 4, 2015, Miami, Florida.

Chair of Session “CyberSecurity I” at the IEEE PES Conference on Innovative Smart Grid Technologies, Washington, DC, February 19, 2015.

Chair of session “Invited Paper Session”, [2nd International Workshop on Trustworthiness of Smart Grids \(ToSG\), Washington, DC, February 18, 2015.](#)

Chair of Panel “Cyber-Dependability and the Power Grid”, [1st International Workshop on Trustworthiness of Smart Grids \(ToSG\)](#), Atlanta, GA June 23, 2014.

Chair of panel “Industry Panel, Case Studies of Cybersecurity in Smart Grid Deployment”, TCIPG Industry Day, November 12, 2014, Champaign, IL.

Chair of Session at North American Power Symposium, Pullman, WA, September 2014

Chair of Session 2B (Practical Experience Reports), International Conference on Dependable Systems and Networks (DSN-2008), IEEE/IFIP, Anchorage, Alaska, June 2008.

Chair of the Session 6B “Fast Abstracts III” at the International Conference on Dependable Systems and Networks (DSN-2002), IEEE/IFIP, San Francisco, CA, June 2003.

Chair of the session “Fast Abstracts I” at the International Conference on Dependable Systems and Networks (DSN-2002), IEEE/IFIP, Washington, DC, June 2002.

Chair of the session “Object Oriented Systems” at the Twenty First International Conference on Distributed Computing Systems (ICDCS-21), IEEE, Mesa, Arizona, April 2001.

Chair of one of the FastAbstracts sessions at the [International Conference on Dependable Systems and Networks](#), (DSN-2000), IEEE/IFIP, New York, June 2000.

Chair of the “Broadcast and Multicast” session at the Nineteenth International Conference on Distributed Computing Systems (ICDCS ’99), IEEE, Austin, Texas, May 31-June 4, 1999.

Program and Organizing Committees

[there are probably 5 or so missing from 2009 and on because I’ve been too busy to track them. Dave Dec. 20113]

Program Committee for the World Fog Congress (IEEE/OpenFog), Santa Clara, CA, October 30 to November 1, 2017.

Program Committee for IEEE SmartGridComm Symposium on Cyber-Physical Wide-Area Monitoring, Protection, and Control, Vancouver, Canada, November 2013.

Program Committee for IEEE SmartGridComm Symposium on Smart Grid Communication Networks., Tainan City, Taiwan, November 2012.

Organizing Committee for the ISCE 2012 International Workshop on Software Engineering Challenges for the Smart Grid (SE4SG12), part of the 34th International Conference on Software Engineering (ISCE), IEEE/ACM, Zurich, Switzerland, June 3, 2012.

Program Committee for 1st International Workshop on High Performance Computing, Networking and Analytics for the Power Grid, Seattle, November 13, 2011.

Program Committee Program Committee for IEEE SmartGridCom m 2011, Track- Architectures and Models, Brussels, Belgium, October 17-20, 2011.

Program Committee for IEEE SmartGridCom m 2011, Track- Communication Networks for Smart Grid, Brussels, Belgium, October 17-20, 2011.

Program Committee, 8th International Conference on Autonomic and Trusted Computing, Banff, Canada, September 2-4, 2011.

Program Committee for 2nd IEEE Workshop on Smart Grid Networking Infrastructure (SGNI), Bonn, Germany, October 4-7, 2011. Part of LCN 2011.

Program Committee for Program Committee on International Conference on Distributed Applications and Interoperable Systems (DAIS 2010), Amsterdam, June 2010. Part of DisCoTec 2010, IFIP.

Program Committee Member for First International Workshop on Smart Grid Communications (IEEE COMSOC), Cape Town, South Africa, May 2010.

Program Committee Member for Seventh IFIP International Conference on Distributed Applications and Interoperable Systems (DAIS 2007), Paphos, Cyprus, June 6-8, 2007.

Program Committee Member for the [4th International Service Availability Symposium \(ISAS 2007\)](#), Durham, New Hampshire, May 21-22, 2007.

Program Committee Member for 2nd Workshop on Hot Topics in Dependability ([HotDep 06](#)), part of the 7th Symposium on Operating Systems Design and Implemental ([OSDI 06](#)), USENIX, November 8, 2006, Seattle.

Program Committee Member for 6th IFIP WG 6.1 International Conference on Distributed Applications and Interoperable Systems (DAIS 2006), Bologna, Italy, June 13-16, 2006

Program Committee Member for [High Assurance Systems Engineering \(HASE 2005\)](#), Heidelberg, Germany, October 12-14, 2005.

Program committee for the FastAbstracts sessions of [International Conference on Dependable Systems and Networks \(DSN-2005\)](#), Yokohama, Japan, June 28-July 1, 2005.

Program Committee Member for [International Workshop on Critical Information Infrastructures \(CIIW'05\)](#), International Institute for Critical Infrastructures, Linköping, Sweden, May 17-18, 2005.

Program Committee Member for [2nd International Service Availability Symposium](#), Berlin, Germany, April 25-26, 2005.

Program Committee Member for 3rd IEEE International Symposium on Network Computing and Applications, Cambridge, MA, August 30-September 1, 2004.

Program Committee Member for the [International Workshop on Middleware Performance \(MP 2004\)](#), satellite workshop for the [IEEE International Performance, Computing, and Communications Conference](#), Phoenix, Arizona US April 2004.

Program Committee Member for the [2004 Pacific Rim International Symposium on Dependable Computing \(PRDC 2004\)](#), IEEE, French Polynesian Islands (Tahiti), March 3-5, 2004.

Program Committee Member for [Workshop on Reliable and Secure Middleware](#), part of [Fifth International Symposium on Distributed Objects and Applications \(DOA'03\)](#), Sicily, Italy, Nov. 3-7, 2003.

Program Committee Member for the Workshop on Architectures for Complex Application Integration (WACAI 2003), part of the [27th Annual International Computer Software and Applications Conference \(COMPSAC 2003\)](#), Hong Kong, Sept. 30 - Oct. 3, 2003.

Program Committee Member for Tutorials Committee, [International Conference on Dependable Systems and Networks \(DSN-2003\)](#), San Francisco, CA, June 2003.

Program Committee member, [2002 International Symposium on Distributed Computing \(DISC-2002\)](#), Toulouse, France, October 28-30, 2002.

[Program committee member for Fourth International Symposium on Distributed Objects & Applications \(DOA'02\)](#), Irvine, California, October 28-November 1, 2002.

Program committee member for Twenty Second International Conference on Distributed Computing Systems (ICDCS-22), Vienna, Austria, July 2-5 2002.

Member of Organizing Committee for International Conference on Dependable Systems and Networks (DSN-2002), Washington, DC, June 2002.

FastAbstracts chair for International Conference on Dependable Systems and Networks (DSN-2002), Washington, DC, June 2002.

Program committee member for Workshop on Dependable Middleware-Based Systems (WDMS-2002), Washington, DC, June 2002.

Program committee member for the Sixth Annual Workshop on Distributed Objects and Components Security (DOCSEC2002), Object Management Group, March 18-21 2002, Baltimore, Maryland.

Program committee member for Third International Symposium on Distributed Objects & Applications, Rome, September 2001.

Program committee for the [FastAbstracts](#) sessions of [International Conference on Dependable Systems and Networks](#) (DSN-2001), Göteborg, Sweden, July 2001.

Program committee member for Twenty First International Conference on Distributed Computing Systems (ICDCS-21), IEEE, Mesa, Arizona, April 2001.

Program committee member for the FastAbstracts sessions of [International Conference on Dependable Systems and Networks](#), (DSN-2000), IEEE/IFIP, New York, June 2000.

Program committee member for Nineteenth International Conference on Distributed Computing Systems (ICDCS '99), IEEE, Austin, Texas, May 31-June 4, 1999.

Program committee member for Fourth Workshop on Languages, Compilers, and Run-time Systems for Scalable Computers (LCR '98), ACM SIGPLAN, Pittsburgh, PA, May 28-30, 1998.

Other Professional Activities

Chair, Data Bus Subcommittee, RFP Task force of the North American Synchrophasor Initiative ([NASPI](#)), 2007-8.

Invited reviewer for *Building Secure and Reliable Network Applications* by Kenneth P. Birman, Manning Publications (Greenwich, CT) and Prentice Hall, 1997.

Referee for many conferences and journals each year.

Senior Member, IEEE

Invited Technical Presentations (*future in parentheses*)

Audience Legend: **EE/Power**, **Computer Science**, **Both**. (pending/future *in italics*.) Note: it is unheard of for a computer scientist (at least an applied “infrastructure software” one) to be invited to present to anywhere close to this number of **power audiences**. Also, for every invited presentation I typically have 3-4 other power meetings I attend.

1. 3/22/18 Technische Universität Dresden, Germany
2. 3/16/18 Technische Universität München, Germany
3. 3/14/18 TZE Energy Lab, Ruhstorf, Germany
4. 6/14/17 Landshut University of Applied Science, Germany
5. 5/3/17 Schweitzer Engineering Labs, Pullman, WA
6. 4/12/16 Hong Kong Polytechnic University.
7. 9/18/15 Cisco (utilities sector), Munich, Germany
8. 9/16/15 RTE France, Versailles, France
9. 9/11/15 Rutgers University, New Brunswick, NJ
10. 7/1/15 General Electric, Atlanta (Host: John McDonald)
11. 6/19/15 TCIPG Summer School, St. Charles, IL
12. 6/18/15 TCIPG Summer School, St. Charles, IL
13. 6/17/15 TCIPG Summer School, St. Charles, IL
14. 6/16/15 TCIPG Summer School, St. Charles, IL
15. 3/24/15 NASPI Working Group Meeting, San Mateo, CA
16. 2/20/15 IEEE Innovative Smart Grid Technologies (ISGT) Conference
17. 2/4/15 ERCOT Grid, Austin, TX
18. 12/12/14 Information Sciences Institute, Marina del Rey, CA
19. 12/3/14 ERCOT Phasor Measurement Unit Task Force (webinar to Austin, TX)
20. 9/26/14 ABB HDVC Lab, Västerås, Sweden
21. 9/25/14 Swedish Defense Research Agency (Sweden’s DARPA), Linköping, Sweden
22. 9/24/14 KTH-Royal Institute of Technology, Stockholm, Sweden
23. 9/22/14 Technische Universität Darmstadt, Germany
24. 9/19/14 Siemens, Munich
25. 9/18/14 RTE France, Versailles
26. 9/17/14 RTE France, Versailles
27. 7/24/14 Bonneville Power Administration, Vancouver WA
28. 7/17/14 PNNL Data Analytics Panel, Richland, WA
29. 7/10/14 Next-Gen Grid Data Architecture Meeting, Valley Forge, PA
30. 6/24/14 Department of Electrical and Computer Engineering, Georgia Tech.
31. 2/28/14 Department of Electrical and Computer Engineering, University of Alaska Fairbanks
32. 12/10/13 Next Generation Grid Data Architecture (high-profile NSF-DOE planning meeting), Knoxville TN
33. 11/4/13 Electrical and Computer Engineering Department, Iowa State University, Ames Iowa.
34. 10/24/13 North American Synchrophasor Initiative (NASPI), Chicago IL
35. 10/23/13 Data & Network Management Task Team, North American Synchrophasor Initiative, Chicago IL
36. 8/16/13 Isilon Corp, Seattle, WA
37. 8/1/13 Southern California Edison, Westminster, CA
38. 7/11/13 PSERC Summer Meeting, Pearl River, NY
39. 2/26/13 National Security Agency, Laurel Maryland
40. 2/5/13 Advanced Grid Modeling Workshop (DOE), Knoxville, TN
41. 1/11/13 Southern California Edison, Westminster, CA
42. 10/29/12 Midwest ISO, Carmel, IN
43. 10/16/12 Department of Electrical and Computer Engineering, Georgia Tech, Atlanta GA
44. 3/16/12 Southern California Edison, Westminster, CA
45. 3/15/12 University of Southern California, Institute for Information Sciences (USC/ISI)
46. 3/14/12 California Institute of Technology (Caltech), Pasadena, CA
47. 1/26/12 Real-Time Innovations, Sunnyvale CA
48. 1/25/12 Intel Labs, Santa Clara CA
49. 11/10/11 ISO New England, Holyoke, MA
50. 10/04/11 National PSERC Seminar
51. 09/29/11 Smart Grid World Forum (plenary presentation), Beijing, China. GE CEO Jeff Immelts in same session.
52. 09/28/11 State Grid of China Corporation (Electric Power Research Institute), Beijing, China
53. 07/05/11 Time Triggered Technologies, Vienna, Austria
54. 6/10/11 BBN Technologies, Cambridge, MA
55. 6/7/11 NASPI Data & Network Management Task Team, Toronto, Ontario, Canada
56. 11/22/10 ISO NY (with ISO New England, PJM, MISO), Rensselaer, NY

57. 8/27/10 Puget Sound Energy (control room and support), Redmond, WA
58. 5/18/10 University of Naples "Parthenope", Italy (International cooperation meeting with EC industry)
59. 2/24/10 NASPI Data & Network Task Team Working Group, Austin, TX
60. 2/22/10 Department of Electrical & Computer Engineering, Texas A&M, College Station, TX
61. 11/18/09 Grid Interop 2009 (Denver, CO)
62. 11/06/09 Department of Electrical Engineering, Arizona State University, Tempe AZ
63. 11/05/09 Salt River Project (a utility), Scottsdale, AZ
64. 8/7/09 Pacific Gas & Electric (planning), Oakland, CA
65. 8/7/09 Pacific Gas & Electric (operations), San Francisco, CA
66. 8/6/09 Southern California Edison (IT), Irwindale, CA
67. 7/10/09 Bonneville Power Administration, Vancouver WA
68. 4/22/09 College of Computing, Georgia Tech, Atlanta GA
69. 4/21/09 Department of Electrical and Computer Engineering, Georgia Tech, Atlanta GA
70. 2/6/09 Cisco Systems (Smart Grid Architecture Group), San Jose, CA
71. 1/21/09 Cisco Electric Utility Consultants Group, Munich, Germany
72. 1/20/09 European Commission ICT- Energy Research Information Day, Brussels Belgium (keynote)
73. 1/24/09 North American Synchrophasor Initiative (NASPI) meeting, Phoenix AZ
74. 1/5/09 Electrical Engineering Department, Northeastern University, Boston MA
75. 10/17/08 North American Synchrophasor Initiative (NASPI) meeting, Charlotte, NC
76. 9/12/08 Pacific Northwest National Lab, Richland WA
77. 8/29/08 Tacoma Power, Tacoma WA
78. 4/30/08 Puget Sound Energy, Bellevue WA
79. 4/30/08 Areva, Redmond, WA
80. 3/27/08 Western Electricity Coordinating Council (Data Exchange Work Group), San Diego, CA
81. 2/5/08 Bonneville Power Administration, Vancouver WA
82. 11/7/07 Tennessee Valley Authority, Chattanooga, TN
83. 11/6/07 Oak Ridge National Lab, Oak Ridge, TN
84. 11/6/07 PSERC National Seminar (via telephone)
85. 11/2/07 Idaho National Lab, Idaho Falls, ID
86. 9/18/07 Workshop on Phasors & Phasor Applications, Entergy utility, New Orleans, Louisiana
87. 9/13/07 Pacific Northwest National Lab, Richland WA
88. 3/15/07 Electric League of the Pacific Northwest, Bellevue Washington
89. 2/26/07 Intercollege, Nicosia, Cyprus
90. 2/22/07 Oslo College, Norway
91. 2/21/07 Buskerud College, Kongsberg Norway
92. 2/19/07 Sintef Energy Research, Trondheim Norway.
93. 1/12/07 IFIP 10.4 Working Group on Dependable Computing, Gosier, France
94. 1/14/07 IFIP 10.4 Working Group on Dependable Computing, Gosier, France
95. 11/28/06 National Institute of Standards and Technology, Washington DC
96. 11/27/06 Department of Energy, Washington DC
97. 11/14/06 Idaho National Lab, Idaho Falls, ID
98. 10/11/06 Avista Utilities, Spokane, Washington
99. 10/5/06 Visualization & Analytics Centers (VAC) Consortium meeting, PNNL, Richland, WA
100. 6/8/06 Technische Universität Darmstadt, Germany
101. 6/5/06 Workshop on Complex Networks and Infrastructure Protection, Italian National Energy Lab (ENEA), Rome, Italy
102. 3/17/06 US-EU Critical Infrastructure Protection workshop, Washington, DC
103. 3/16/06 Department of Homeland Security, Washington, DC
104. 10/13/05 Eastern Interconnect Phasor Project (EIPP) meeting, Washington, DC. Note: EIPP later was expanded to what is now known as the North American Synchrophasor Initiative (NASPI), www.naspi.org.
105. 5/30/05 Workshop on Next-Generation Power Grid Communications for Better Control and Protection, Rome, Italy (keynote speaker)
106. 4/26/05 2nd International Service Availability Symposium (ISAS05), Berlin, Germany.
107. 4/25/05 Lancaster University, UK
108. 4/22/05 Lancaster University, UK
109. 3/7/05 Department of Energy, Washington, DC (briefing staff of Office of Electricity & others in DHS, NIST, NSF)
110. 2/4/05 EC Workshop on power grid communications, Brussels, Belgium (keynote speaker)
111. 11/18/04 Linköping University, Sweden
112. 10/21/04 Norsk EnergiRevisjon AS (NERAS), Lier, Norway
113. 10/11/04 Technische Universität Wien, Vienna, Austria
114. 10/8/04 Technische Universität Darmstadt, Germany
115. 10/6/04 ABB Research, Baden, Switzerland (ABB's corporate research headquarters)

- 116.9/27/04 European Commission, Brussels Belgium
- 117.9/20/04 Department of Homeland Security, Washington DC
- 118.5/6/04 Pacific Northwest National Lab, Richland WA
