

EE351: Midterm # 1

Study guide:

Exam will cover material from:

1. chapter 10
2. chapter 12 (power attenuation and resonators not included)
3. lecture notes: on polarization and multilayer materials

Scope of questions: Similar to examples and home work problems.

Review session:

Time: Thursday at 5:00 p.m.

Where: sloan 163. (if in use we will use a different room in sloan building or if WSU scheduling assigns a room).

The review will be based on answering questions you have on the material. Come prepared with questions.
