

EE351
Fall 2005
Final Examination Guidelines

1. The examination is comprehensive and consists of six questions.
2. You are allowed two pages of equations. You can either use a single sheet of paper and write on both sides or use two single sided papers. (No examples, figures, or solutions of homework problems)
3. Show all intermediate steps in your solution for partial credit.
4. Examination is closed book and notes (with the exception of the two page summary).
